

ABC INSTRUCTIONS

Hi (*Fill In Clients Name*)

This is my ABC (Animated Business Card): (*Your Youtube Link*)

→  Please save my online contact file as a New Contact, using the top-right + symbol at (*Your Online Contact Link*) & contact me anytime.
(*Your Name*) - (*Your Website*)

Add The Paragraph Somewhere On Your Cellphone.

This will create one Copy/Paste paragraph that can be added to a note or someplace on your cell phone that can be easily found and copied into a blank text field. You can easily copy it once before leaving the house and paste it as many times as you want without having to recopy it. It stays copied until you copy something else.

Before going to a class, meeting, party, or other occasion with lots of possible contacts, you can even have it already copied into a new text/message field and it is ready to add their name and phone number. All you have to do is click "Send" and you are ready to send out another.

Don't forget to add the name before you send so you have a record of their number and name to add as a new contact to your phone's contacts later.

If you like, you can delete the Emoji pic of the little cellphone on the beginning of the 3rd line.

Below Is A Copy Of My Paragraph

Hi

This is my ABC (Animated Business Card): <youtu.beNZyRlrsnJFc>

→  Please save my online contact file as a New Contact, using the top-right + symbol at <qrs.ly/525bnxw> & contact me anytime.
